Enhanced By Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the expenence with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of earing for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered perves and broken health resulting from an unprepared condition, and with ampre time in which to prepare, were will persist in going blindly to the trial,

Every woman at this time should rely upon Lydia E. Pinkham's Vegetalis Compound, a most valuable tonic and invigorator of the female organism.
